

Responding to an incident requires immediate action to shut down the attack and preserve evidence in a forensically sound manner. Do it wrong and you could cause irreparable damage to files, the system and your company.

ISG has the people, process, experience and tools to help you remediate an incident.

EXPERIENCED AND PROVEN EXPERTS

- ◇ Former law enforcement/intelligence operatives: federal, international (Interpol) state and local
- ◇ Certified digital forensics examiners
- ◇ Technology domain expertise
- ◇ Expert testimony

CAPABILITIES

- incident response
- eDiscovery
- computer forensics
- mobile forensics
